Pittsburgh, June 20.—Pittsburgh today hit three New York pitchers at the right time, and the loose holding of the visitors enabled them to win easily, 5 to 4. O'Toole pitched splendid ball. Myers was benched for arguing on the bench and strikes. Tesreau suffered from the heat. Score:

The Biggest Motor Truck Order Ever Placed

80 Alcos for the U. S. Mail—A \$225,000 Sale

THE Postal Transfer Service, Inc. has just placed the largest order for motor trucks on record—an order for 80 Alco trucks to haul U. S. mail—a sale approximating \$225,000.

This marks the greatest tribute ever paid to any motor truck. For the contract was awarded to the Alco over leading makes of motor trucks, gasoline and electric, after exacting tests by Government inspectors.

Consider for a moment these facts:

These 80 Alco trucks in a year will be required to cover 1,000,000 miles; to haul 1,550,000 tons—157,680,000 cubic feet—of United States postal matter. End against end, this fleet of 80 Alco trucks extends 1310 feet—a quarter of a mile.

Great are the proportions of these figures. But more important is the nature of the service. It is day in and day out, running on railroad schedule, making trains, operating nights as well as days—24 hours a day at times—over all sorts of roads, in the sizzling heat of summer, in the winter blizzards—and always the necessity of clocklike regularity.

None but a superior truck could qualify for tasks such as these.

The Alco truck is no experiment in this type of service—it has been proven in the service of express companies. The American Express Company has 36, the Long Island Express 20 and so on.

And no type of duty is more severe than express service. Further, it is only natural that the verdict should fall to a product of the American Locomotive Company. 51,000 of its locomotives have hauled you, your families, the things you eat and things you wear—safely and on time; in high altitudes; in low altitudes; and in many latitudes.

This is going to be a hot summer. It will cause many millions of dollars loss in horse flesh. Better anticipate by looking into Alco trucks for your business.

CRIMSON MAKES SPORT OF ELI'S TRAILING CREWS

(Continued From First Page.)

continued until they had passed and gained a considerable lead over the Eli boat. Harvard then lowered her stroke to thirty-six, while Yale was rowing thirty-two, and many of the Eli's were splashing badly. At the mile and a half Harvard had increased her lead, and the men in the Yale shell were tiring noticeably. Harvard led at the two-mile mark by three lengths, which was increased to six lengths in the next mile. At the three-mile posts the Crimson led by eight lengths. The Harvard stroke was then gradually raised, and the Crimson shell rapidly drew away from the tired Eli's.

Freshmen Have Best Race.

The best race of the day was between the freshmen eight over the two-mile course. Yale caught the water first, and for a short distance had a slight advantage. The Crimson youngsters took it easy and were content to hold Yale about even to the mile mark, where open water separated the boats for the first time. Harvard seemed to gain slightly, going to the next mark, and after passing the mile and a half made a terrific attempt to catch the fast moving Harvard shell, but the English stroke tired the Eli youngsters, and Harvard held her own. Every man in the Yale boat was exhausted, while Harvard appeared comparatively fresh, and paddled to their boat house after a short rest at the finish line. The official time was: Harvard, 10:41; Yale, 10:45.

Harvard's varsity eight, which swamped strokes with Yale on the Thames yesterday afternoon. The Crimson oarsmen took the measure of the New Haven boys. The eight are seated as follows: Reynolds, bow; Trumbull, No. 2; McVicar, 3; Harwood, 4; Mills, 5; Goodale, 6; Morgan, 7; Pernie, stroke, and Abelen, captain and coxswain.
